Help spread the word about solar!

Sample Email

Denver has partnered with Solar United Neighbors of Colorado to launch the [Denver Solar Co-op](#). Solar United Neighbors brings homeowners together into a group, or co-op. They provide unbiased, installer-neutral support through each stage of the process of going solar. Their experienced team ensures you understand how solar works, how it can be financed, and how it can be installed on your home.

Co-ops take advantage of the group's bulk-purchasing power to get discounted pricing and a quality installation. Co-op volunteers choose an installer on behalf of the entire group through an open and competitive bidding process. The selected installer provides everyone in the group with a personalized proposal for their consideration; there is no obligation to install. Join the Denver Solar Co-op today at SolarUnitedNeighbors.org/Denver.

Sample Social Media Post

Go solar as a group with the Denver Solar Co-op! With the help and expertise of [@SolarUnitedNeighborsofColorado](#), Co-op members use their bulk-purchasing power to get discounted pricing and a quality installation.
